ABSTRACT

The Fact Book is compiled annually to help meet statistical information requirements for planning and analysis at all levels of the university. Its definitions, formats, and contents have evolved over the years in response to changing campus information needs. This seventh edition contains historical data on student enrollment, faculty and support staff members, courses, grades, finances, and space. The date of record for all data is December 1 unless otherwise indicated. Information is provided for the current year and for various periods up to 10 years. All of the material is presented in tabular form, with the exception of several graphs. (Author/LBH)

The Fact Book is compiled annually to help meet statistical information requirements for planning and analysis at all levels of the University. Its definitions, formats, and contents have evolved over the years in response to changing campus information needs.

This seventh edition of the Fact Book contains historical data on student enrolment, faculty and support staff numbers, courses, grades, finances, and space. The date of record for all data is December 1 unless otherwise indicated. Information is provided for the current year and for various periods up to ten years. Data for earlier periods and supplementary information are available in earlier Fact Books and from the Office of Institutional Research.

Although the Fact Book is completed by the Office of Institutional Research, it is the result of work done by many people over several years in many University offices. The basic format was developed by Margaret Reti. Patricia Wiswell typed this and the previous editions of the Fact Book.

We welcome suggestions which will help us make future editions more useful to you.

Yours sincerely,

COURSES

COURSE -- Instruction offered in a special subject matter within a given period of time for which credit toward graduation or certification is usually given. Courses can carry full, half or quarter weights.

COURSE ENROLEE -- One student enrolled in one full equivalent course.

CREDIT COURSE -- A course which upon successful completion counts towards the student's graduation or certification. Certain courses constitute part of the student's prescribed program even though no actual credits are assigned to the course. In this report such courses are treated like credit courses.

EVENING CREDIT PROGRAM (ECP) -- Sections of courses carrying university credit which are offered in the evening. Such sections are numbered 91 to 98.

FALL SESSION -- Courses carrying university credit held either during the day or evening between September and December.

INSTRUCTION LEVEL

(a) Lower Level: Lower level instruction is identified by courses numbered 100-299.

(b) Upper Level: Courses numbered 300-599 are considered upper level, except for faculties and departments which had not as of December, 1975 changed their course numbering system based on GFC's decision of May, 1970. For those departments and faculties, 500 level courses are considered graduate.

(c) Graduate Level: Courses numbered 600 and higher are considered graduate level. In addition for faculties and departments which had not as of December, 1975 changed their course numbering system, 500 level courses are also considered graduate level.

SECTION -- One or more students formally organized for instruction in a specific course under the supervision of one instructor. A group of students taught simultaneously by two or more instructors represent two or more sections. (A student or group of students who may meet informally or irregularly for discussion with an instructor would not be considered a "section.") One course can have several types of sections depending on the type of instruction comprised in the course (lecture, tutorial, laboratory, etc.). Sections carry the same full, half and quarter weights as the course.

SECTION ENROLEE -- One student enrolled in one full equivalent section. One course enrolee can generate several section enrolees depending on types of instruction comprised in the course (lecture, tutorial, laboratory, etc.).

SECTION HOURS (SH) -- The number of weekly formal instructional hours per full equivalent course multiplied by the number of sections in each course. Lecture hours are multiplied by the number of lecture sections, laboratory hours by the number of laboratory sections and so on.

SECTION HOURS PER SECTION -- The number of section hours per full equivalent section.

SPRING SESSION AND SUMMER SESSION -- Courses carrying university credit offered during a six week period in May and June (Spring) or in July and August (Summer).

UNWEIGHTED AVERAGE SECTION SIZE -- The number of section enrolees per full equivalent section.

WEEKLY STUDENT HOURS (WSH) -- The number of weekly formal instructional hours multiplied by the number of course enrolees.

WEIGHTED AVERAGE SECTION SIZE -- An unweighted average section size weighted by the number of hours each section is taught.

WINTER SESSION -- Courses carrying university credit held either during the day or evening between January and April. Prior to 1973, Winter Session extended from September to April.

GRADES

COLLEGE TRANSFER STUDENTS -- Students who entered The University of Calgary as full-time students with full accreditation for first year from Mount Royal College, Medicine Hat College or Red Deer College.

COURSE GRADE POINT AVERAGE (CGPA) -- The average of grade points obtained by students registered in a course. The following grade points are attacned to course marks used in 1974-75 at The University of Calgary: A+ and A, 4; B+ and B, 3; C, 2; D, 1; and F, 0. Effective September, 1973, the following grade points are attached to course marks in courses numbered 600 and higher. A-, 3.7; B-, 3.3 (graduate students only); B-, 2.7.

Each application will be considered on its own merits by the dean or director of the faculty or school concerned. Such students will normally be required to provide evidence of ability to undertake academic studies, such as a recent matriculation or correspondence course taken, and to undergo special entrance examinations.

STUDENT GRADE POINT AVERAGE (SGPA) -- The average of grade points (0-4) obtained by a full-time student for courses taken during a session. For "Winter 1974" and "Winter 1975" SGPA is based on all courses (both fall and winter) of students who were full-time in the winter sessions of 1974 and 1975 respectively. Students who were full-time in the fall only are not included in the SGPA data. For the purpose of the average, marks carry the same full, half and quarter weight as the courses.
